

DYCI | DR. YANGA'S COLLEGES, INC.

MAGIS QUAM SCHOLA, FAMILIA

November 6, 2015

DAVID KEARNEY

**St. Albert the Great Catholic School
1255 St. Albert Drive Reno, Nevada, USA**

Dear Sir,

Warm Greetings of Peace!

Since 2009, our school, **Dr. Yanga's College's, Inc. High School Department**, has been humbly representing the Philippines in two prestigious global robotics competitions for young students,- the **World Robot Olympiad** and the **F.I.R.S.T. Lego League World Festival**. Indeed, with God's blessings, our robotics program has been very successful in terms of awards in both local and international competitions, which has generated more than 30 international and national recognitions so far.

Proof of this is our most recent victory in the **14TH Philippine Robotics Olympiad**, a nationwide robotics and invention competition held last **11 September 2015**, where our College, Junior High School and Grade School teams, **DYCI Primes 3.0**, **DYCI Primes**, and **DYCI Junior Primes** were historically hailed as **BACK-TO-BACK CHAMPIONS**. It is through this achievement that our teams will be the **OFFICIAL PHILIPPINE REPRESENTATIVE** yet again to the **12th World Robot Olympiad**, this **November 5-10, 2015** to be held at **Doha, Qatar**.

Though powerful in terms of student population, it is a well-known fact that our institution is a "**private school for the poor**". It is in this context that we are indeed very grateful of your institution's goal to help our Robotics Program. Attached in this e-mail are pertinent documents showing the beginning to the transformation of DYCIan education through Robotics Program.

In behalf of our institution, we would like to extend our deepest gratitude to you and St. Albert the Great Catholic School.

Thank you very much and may God bless you always!

Sincerely,

MICHAEL S. YANGA, MBA
VP for Basic Educatii
